

# School Facilities Board

## Description

Created by Laws 1998, Fifth Special Session, Chapter 1, the School Facilities Board consists of nine voting members appointed by the Governor; in addition, the Superintendent of Public Instruction serves as a non-voting member. The Board is charged with administration of three capital funds: a) Building Renewal, b) Deficiencies Corrections, and c) New School Facilities. In order to effectively evaluate the State's school capital needs, the Board maintains a facilities database consisting of information reported by each school district. By extrapolating the school district data, the Board provides funding for building renewal and the construction of new facilities. Through periodic inspections, the Board will ensure adherence to established adequacy guidelines. In order to assess the deficiency corrections requirement, a statewide assessment was conducted; the results of which will be used to create a funding plan designed to bring existing facilities to comply with State standards by June 30, 2003.

## IT Vision

Enhance our capabilities in the area of school district electronic data transmission and increase access to information through the SFB web site.

## IT Mission

Utilize technology to more efficiently collect data from school districts, perform data analyses and transmit information to school districts.

## Goal 1

Maintain district electronic information transmission

### Objective 1

keep district information areas on website current

#### Current Situation

Oversight of quality control of the data on our website needs to continue.

#### Performance Measures

- 1 Number of Observed Errors in website data.
